The University of Sydney  
School of Mathematics and Statistics

Expression of interest:  
Casual lecturing or tutoring  
Summer School 2009

Name:

Contact details:

Please circle any of the following units you are interested in teaching at Summer School over the period Monday 5 January to Friday 13 February 2009, and whether you would like to give lectures and/or tutorials. (Classes with very small enrolments may be conducted as flexible reading courses.)

MATH1001  lectures tutorials
MATH1002  lectures tutorials
MATH1003  lectures tutorials
MATH1005  lectures tutorials
MATH1011  lectures tutorials
MATH1013  lectures tutorials
MATH2061 Linear Mathematics half Vector Calculus half lectures tutorials lectures tutorials
MATH2067 Differential Equations half Vector Calculus half lectures tutorials lectures tutorials

On the reverse side of this sheet, note any special requirements or constraints to be taken into consideration, especially with regard to timetabling classes. Please also outline briefly the reason for your expression of interest (e.g. finding bridging employment before taking up a postdoctoral fellowship; supplementing scholarship income; obtaining teaching experience towards developing an academic career).

The exam period for these units runs from Monday 16 February to Friday 20 February. Prospective lecturers would be expected to mark exams and attend examiners’ meetings in late February. Remuneration for all tasks will be at standard casual rates.

Please return this expression of interest to the pigeonhole of David Easdown, Summer School Coordinator, by Friday 29 August 2008. If you are not a member of academic staff you should also attach a brief curriculum vitae (not more than two pages) including contact details of two referees.
