School of Mathematics and Statistics

Expression of interest:
Casual lecturing or tutoring
Summer School 2011

Name:

Contact details:

Please circle any of the following units you are interested in teaching at Summer School over the period Thursday 6 January to Friday 18 February 2011, and whether you would like to give lectures and/or tutorials.

MATH1001 lectures tutorials
MATH1002 lectures tutorials
MATH1003 lectures tutorials
MATH1005 lectures tutorials
MATH1011 lectures tutorials
MATH1013 lectures tutorials
MATH2065 lectures tutorials
MATH2061 lectures tutorials
MATH2070 lectures tutorials

On the reverse side of this sheet, note any special requirements or constraints to be taken into consideration, especially with regard to timetabling classes. Please also outline briefly the reason for your expression of interest (e.g. finding bridging employment before taking up a postdoctoral fellowship; supplementing scholarship income; obtaining teaching experience towards developing an academic career).

The exam period for these units runs from Thursday 17 February to Wednesday 23 February. Prospective lecturers would be expected to mark exams and attend examiners’ meetings in late February to finalise results by Monday 28 February. Remuneration for all tasks will be at standard casual rates.

Please return this expression of interest to David Easdown, Summer School Coordinator, School of Mathematics and Statistics, University of Sydney, NSW 2006, by Monday 6 September 2010. Please also attach a brief curriculum vitae (not more than two pages) including contact details of two referees.
